Dick Schroeder helps people understand and experience the love of God the Father in their lives. Through the Seminar he explains how he found his own yearning for a father's love satisfied in his relationship with God the Father. Through poignant testimonies and practical biblical teaching, he extends an invitation to follow the footsteps of Jesus into the presence of the Father. "This is and has been the Father's work from the beginning - to bring us into the home of His heart. This is our destiny." -
